Professional Summary

Second-year B.Tech CSE (AI) student at USICT, GGSIPU with hands-on practice in C++, Python, data structures, algorithms, and web development. Focused on building strong engineering fundamentals and seeking software engineering internship opportunities.

Education

- B.Tech in Computer Science and Engineering (Artificial Intelligence), USICT, GGSIPU | 2024-2028 (Second Year, Ongoing)

Technical Skills

- Programming: C++, Python, JavaScript
- Core CS: Data Structures and Algorithms, Operating Systems, Computer Networks
- Web: HTML, CSS, JavaScript | Database: SQL
- AI/ML: Machine Learning Fundamentals, NLP Basics | Tools: Git, GitHub, VS Code

Projects

- AI Recommendation System: Built a recommendation model using collaborative filtering and content-based methods with preprocessing and tuning.
- Student Management System: Developed a Python and SQL CRUD application for academic records, search, and grade management.
- Responsive Portfolio Website: Built an interactive personal portfolio using HTML, CSS, and JavaScript with theme toggle and contact form integration.

Training and Achievements

- Consistent self-driven learning in DSA, AI fundamentals, backend API concepts, and software development practices.
- Solved 500+ DSA practice problems across coding platforms.
- Actively preparing for internship opportunities through projects and regular coding practice.

Strengths

- Strong problem-solving approach with clear focus on fundamentals.
- Quick learner with disciplined execution and continuous improvement mindset.
- Clear communication and collaborative working style.

Languages and Interests

Languages: Hindi (Native), English (Professional Working Proficiency)

Interests: Competitive Programming, Software Development, Artificial Intelligence, System Design Fundamentals

Resume updated: March 2026
